

Creating instructions for planting fruit and vegetables

Strip Designer – Possible example of student work from a Level 1–2 class

How to grow parsley!

1. Break up soil to make it easy for the new roots to grow through

2. Add fertiliser to the soil to make it healthy

3. Dig a small hole for the seeds

4. Place 2 seeds in the hole

5. Cover the hole with soil.

6. Water the seeds

7. Cover the soil with mulch

8. Look after the plants over the next few weeks.
